Lexmark Forms Printer 2590+ Series

High-Quality Forms Printing

The Lexmark Forms Printer 2590+ series provides high-quality forms printing and features such as high-yield ribbons, multi-font document support, and character and page monitoring.

Multi-Part Forms

Lexmark Forms Printer 2590+

Overview:

Reliability and performance

With fast print speeds up to 556 cps at 12 cpi and a rugged design that can handle extreme environments and workloads, the Lexmark Forms Printer 2590+ series helps you to be productive no matter where you are. Benefit from the 2MB of built-in flash memory that expands support for bar codes, non-volatile fonts and remote management.

Flexible paper handling

Easily switch between push and pull feeds and select the type of paperhandling that best suits your needs. Use the optional Automatic Sheet Feeder to load stacks of cut-sheet media, envelopes or multi-part forms. Use the Tractor 2 option to simultaneously load two types of continuous forms.

Flexible media support

Print on multiple types of media, including single-part or multi-part continuous forms, and single-part or multi-part cut forms. Multi-part forms can include one original and up to five copies.

Easy to use

The easy-to-use operator panel lets you access all of the printer functions, as well as monitor printer usage with character and page counts. The panel also includes a font preview, so you can make sure that the correct font is used on your document.

Easy to maintain

For multi-national groups, the universal power supply reduces the need to maintain separate low-voltage and high-voltage power supplies. On the 2590n+ and 2591n+, the embedded web server and Lexmark Markvision Enterprise help you easily maintain multiple devices from a centralized location.

Easy to connect

Connecting to your network is easy and secure with built-in Ethernet and security features such as IPSec, HTTPS, SNMPv3 and 802.1x authentication with the Forms Printer 2590n+ and 2591n+.

High-quality and long lasting

Print near letter-quality multi-font documents and replace supplies less often. Powerful print heads last up to 300 million characters and re-inking ribbons that print up to 8 million characters are available.
